

SHOWING A LOOK PAST THE LENS:

Identifying and Diagnosing Diabetic Retinopathy to Improve Eye Care for Patients with Diabetes

WELCOME TO AUGMENTED REALITY *physician and patient learning tool!*

This tool can be used for peer-to-peer, physician-to-patient, and physician-to-caregiver discussions. Displayed are the pathophysiologic changes observed within differing stages of diabetic retinopathy, guiding you through descriptions, animations, and explanations regarding the pathways that lead to diabetes-related retinal disease. The images and animations that are brought to reality can be manipulated and controlled by YOU, allowing you to focus on specific areas and be truly engaged in the learning tool.

To use the augmented reality, please download the **“Diabetic Retinopathy AR”** app from the Apple App Store or Google Play Store on your phone or tablet.

This activity is provided by Med Learning Group.
This activity is co-provided by Ultimate Medical Academy/CCM.
